Plant Juice Man Says All Testimonials Are Given Voluntarily by Local People.

In answer to the query: "How can the merits of a medical discovery be stab-lished," the Plant Juice Man, who has his headquarters at the People's Drug Store, corner of Seventh and E streets northwest, said:
"Of late years when a medical discovery is made and public tests of its area."

"Of late years when a medical discovery is made and public tests of it are damanded, so that its merit can be established, the persons or firm to whom the invention is accredited, select personally so many people, and on those selected, the remedy is tried."

Plant Juice has been submitted to a far more severe series of tests. I that none of the cases that it has releved have been selected, and still it has met with signal success in nearly every instance.

In Washington it is repeating the auccess that has attended it in other cities.

Every day numerous statements are being received from local people, lestifying to the way they were relieved by Plant

Juice.

One of the most interesting is that of Mr. Frank A. Baxter, of 1813 Eighth street northwest, an old resident of Washington, who has hosts of friends here. He said:

ingion, who has hosts of friends here. He said:

"For some time I have been a great sufferer with stomach trouble. All the food that I ate formed gas in my stomach and I was in a constant state of misery. The gas pressed up against my heart and caused palpitation and shortness of breath; I had headaches, dizzy spells, and my liver was affected; I was also troubled with my kidneys and suffered with constant pains in my back; was constipated and feit weak and nervous. Nothing helped me until I started to take your Plant Juice, which I was induced to try by my stepdaughter, who had fine results from it. The benefit I have derived is certainly wonderful for a man of my age. I have a fine appetite, sleep fine, the headaches and dizzy spells have left me and I have no more trouble with my liver or kidneys. I feel ten years younger and am giad to give this public indorsement for Plant Juice."
